2017 MBTA SUMMER SCHOOL COURSE CATALOG			
CSD2400	ANTHROPOLOGY	0.5 Social Studies Core	\$95.00
<p>Open to Grades 9-12. This course uses the tools and methods of the cultural anthropologist to examine the systems, diversity, commonality and dynamics of different world cultures, as well as, looking at the economic, geographic, and social patterns from cross-cultural perspectives. Students will engage in the analysis and evaluation of the ways in which groups change and interact globally.</p>			
XLH2001	COMMUNITY SERVICE	0.5 Elective	\$95.00
<p>Community service is an elective credit/no credit course that provides students with the opportunity to perform volunteer work on their own time. It allows students to develop responsibility, encourages humanitarian attitudes by helping others without compensation, and encourages cooperative working relationships with peers and adults in the community. This course is directly supervised by a school faculty member, and students must get site approval before the start of service. Students may only receive 1 elective credit of community service towards graduation requirements.</p>			
MBTA303	COSMETOLOGY: CUTTING EDGE STYLES	1.0 CTE Elective	\$190.00
<p>Open to Grades 9-12. Students will explore career options in the field of cosmetology. Research into some of the common techniques used in caring for hair, nails, and skin in salons, spas, and other cosmetology-related businesses will also be presented.</p>			
TPU7216	CULINARY ARTS	1.0 CTE Elective	\$190.00
<p>Open to Grades 9-12. Food is fundamental to life. Not only does it feed our bodies, but it's often the centerpiece for family gatherings and social functions with friends. In this course, you will learn all about food including food culture, food history, food safety, and current food trends. You'll also learn about the food service industry and try your hand at preparing some culinary delights. Through hands-on activities and in-depth study of the culinary arts field, this course will help you hone your cooking skills and give you the opportunity to explore careers in this exciting industry.</p> <p><i>Students will be responsible for purchasing basic ingredients necessary for nine cooking portfolios, such as eggs, flour, vegetables, and other staple items. (Students are able to substitute more expensive items, like meat, for less expensive items, like tofu.)</i></p>

FVB1100	<b>GENERAL ART 1A</b>	0.5 Elective	\$95.00
<p>Open to Grades 9-12. This course will introduce students to the visual arts, drawing, painting and printmaking techniques and provide students with opportunities to imaginatively create artwork . Students will apply elements and principles of design. Ideas and concepts will be explored through two-dimensional media using a fundamental knowledge of drawing, painting and printmaking techniques. Exposure to various art techniques should help foster an understanding of and appreciation for art.</p>			
CSD2100	<b>GEOGRAPHY</b>	0.5 Social Studies Core	\$95.00
<p>Open to Grades 9-12. This course develops understanding of geographic terms, classification systems, specific locations and regions, human interaction, and the environment. Students explore present and past societies through geographic tools and methods used to evaluate ecosystems, human patterns, and consequences of human activities on Earth.</p>			
CER2200	<b>HAWAIIAN STUDIES</b>	0.5 Elective	\$95.00
<p>[formerly: PONO SUSTAINABILITY] Open to Grades 9-12 <i>*unique course*</i> This course offers a glimpse of the mo'olelo (story) of Hawai'i through the exploration of time, politics, economics, society, and the natural world, while addressing the contrasting effects on this environment's capacity to endure. Students will take active part in identifying issues of sustainability and will begin to conceptualize solutions.</p>			
THC4010	<b>HEALTH SERVICES CAREER PATHWAY CORE</b>	1.0 CTE Elective	\$190.00
<p>Open to Grades 10-12. In this course, students will be introduced to the various disciplines within the health sciences, including toxicology, clinical medicine, and biotechnology. They will explore the importance of diagnostics and research in the identification and treatment of diseases. The course presents information and terminology for the health sciences and examines the contributions of different health science areas.</p>			
HLE1000	<b>HEALTH TODAY AND TOMORROW</b>	0.5 Health Core	\$95.00
<p>Open to Grades 9-12. Students will develop skills that promote and protect the health of themselves and others. Topic areas include mental and emotional health, healthy eating and physical activity, personal health and wellness, safety and prevention of injury and violence, promotion of a tobacco, alcohol, and drug-free lifestyle, sexual health and responsibility, and environmental impacts on health.</p>

CHR1100	<b>MODERN HISTORY OF HAWAI'I</b>	0.5 Social Studies Core	\$95.00
<p>Open to Grades 9-12. This course examines how the decisions of the past account for and impact the circumstances in today's Hawai'i, as well as, the technological and multi-cultural development within the islands. Students will use the tools and methods of a social scientist to conduct in-depth historical inquiry that focuses on the geographic, socio-political and economic structures of the interactions and interrelationships that have shaped and continue to influence major decisions facing Hawai'i.</p>			
CGU1100	<b>PARTICIPATION IN DEMOCRACY</b>	0.5 Social Studies Core	\$95.00
<p>Open to Grades 9-12. This course provides opportunities for students to actively engage in civic discourse and participation. It engages students in the examination of government, political activity, contemporary issues, decision-making and the democratic process. This course focuses on the principles, values and ideals of American constitutional government, global interactions...</p>			
PEP1010	<b>P.E. LIFE ACTIVITIES</b>	0.5 P.E. Core	\$95.00
<p>Open to Grades 9-12. <i>*NEW Curriculum*</i> This course develops and strengthens physical movement forms, concepts, principles, and skills through participation in a variety of physical fitness experiences, including target, net, field, invasion, and aquatic sports and games. Students will assess personal levels of physical fitness that reinforce these physical activities in their daily lives. Students should develop and apply a variety of locomotor and non-locomotor movement skills throughout the course to a range of modified games and lead-up activities. The content of this course should empower learners to actualize a vision of themselves as competent movers with the skills, knowledge, and desire to become life-long participant in physical activities.</p>			
PEP1005	<b>P.E. LIFETIME FITNESS</b>	0.5 P.E. Core	\$95.00
<p>Open to Grades 9-12. <i>*NEW Curriculum*</i> This course is designed to integrate physical activity and personal fitness by exposing students to the wide range of physical activity resources available in their school and community. Students will self-assess their personal fitness level, document their physical activity and develop a personal fitness plan by understanding and making goals, using correct techniques of exercising and preparing the appropriate diet and nutrition for the individual student.</p>

CSD2200	<b>PSYCHOLOGY</b>	0.5 Social Studies Core	\$95.00
<p>Open to Grades 9-12. This course examines the physiological and psychological basis for human behavior. It also focuses on examining research methods in psychology, exploring different learning theories, and understanding aspects of behavior disorders. Students will be able to identify the difference between theory and information that is not scientifically supported, within the context of human behavior.</p>			
SLH5001	<b>SURVEY OF BOTANY</b>	0.5 Science Elective	\$95.00
<p>Open to Grades 9-12. <i><b>NEW Course*</b></i> This course provides a survey to major topics in botany including: the study of plant structure and physiology, metabolism, growth and irritability, plant genetics and evolution, interactions between plants and their environments, plant classification and identification, and the impacts of plants on human life (and vice versa). Laboratory investigations and independent inquiry are emphasized. Students are to meet all relevant benchmarks in Biological Science (B.S.) Content Standards 1-5.  Recommended Pre-requisite: Course in Biology</p>			
CHW1110	<b>WORLD HISTORY A</b>	0.5 Social Studies Core	\$95.00
<p>Open to Grades 9-12. This course examines human experience through such themes as migration, imperialism, trade, exchanges, and transfers. This course provides a foundation and a rationale for active participation in our global community. It examines diverse perspectives, encourages diverse interpretations and historical empathy, and explores global conflict and cooperation. This course engages students in historical inquiry focusing on the historic, technologic, socio-political, geographic, and economic development of past and contemporary civilizations. Students examine decisions, events, and ideas of the past to make informed judgments on contemporary issues, decisions, and events.</p>
